Proof of peer review

Paper accepted to 'Acoustics 2012 Fremantle: Acoustics, Development and the Environment' were reviewed by members of the review panel comprising 114 reviewers. The names of referees were kept anonymous from the authors. The referees reviewed the papers to ensure they were of high standard for the conference, and provided written feedback on the quality of the manuscripts. The referee criteria included: technical content, originality, clarity, English expression and technical significance. Papers were matched where possible to referees in the same field with similar interests and area of expertise as the authors.

The organising committee wishes to thank the scientific committee and the authors for their cooperation and time to enable this review process to occur.
