

Noise Consultant / Account Delivery Manager

- Opportunity to work in the Aviation industry
- Permanent role with security
- Attractive salary and conditions
- Melbourne based

This global market leader is looking for an experienced professional who will be knowledgeable in the aviation industry with an understanding of the noise impact aircraft have on the community.

In this challenging role, and as part of a dedicated team, you will be responsible for ensuring we meet our client's expectations in delivering a range of services to our key accounts. Our clients include many major international airports who engage us to manage their noise measurement systems which enable them to meet their community obligations and regulatory compliance requirements.

The key responsibilities include, but are not limited to:

- Maintaining long term customer relationships that lead to contract renewals
- Directly responsible to the customer for ensuring the service provided meets their expectations.
- The customer contact point
- Being a knowledgeable user of the application software and the domain will allow you to provide guidance and advice on business issues.

To be successful in this position you MUST:

- be a team player;
- have strong people management skills;
- have previous experience in customer management

Ideally you will possess:

- **A member of the Australian Acoustics Society**
- An understanding of the airport or aviation industry
- Tertiary qualifications in engineering or other related technical area, and/or relevant industry experience;
