

Position Vacant

Senior Acoustic Engineer/Scientist

Growing specialist manufacturing firm.
Rewarding role for a senior engineer with acoustics experience.
Great professional development opportunities across The Advitech Group.

Hushpak Engineering is seeking a senior mechanical engineer or scientist with acoustic experience to join its growing team.

The Newcastle-based role will suit an experienced engineer or scientist who has a desire to develop professional skills across a broad range of industries.

The position is offered on a permanent, full-time basis.

Hushpak Engineering specialises in unique engineering solutions in the field of noise control, for mining, construction and industry. We are part of The Advitech Group along with Advitech, a consulting firm specialising in engineering, environment, risk and project management; and Novecom, a systems integration provider specialising in environmental monitoring solutions.

The role will involve:

- Taking noise measurements
- Acoustic modelling (free field)
- Building and machinery acoustics
- Attenuation modelling
- Preparation of proposals and technical reports
- Developing new and existing client relationships

To be successful you will possess:

- Degree qualification in relevant discipline
- 5 yrs + relevant experience
- Demonstrated ability to build customer relationships
- Strong organisational skills
- Excellent oral and written communication skills
- Current drivers licence
- Trade background advantageous
