

Senior Noise and Vibration Consultant

GHD is one of the world's leading engineering, architecture and environmental consulting companies. Established in 1928, GHD employs more than 6000 people across five continents. GHD serves clients in the global markets of water, energy and resources, environment, property and buildings, and transportation.

More than a professional services firm, GHD has much to offer, combining service excellence and innovation in everything we do. We provide a supportive, diverse and highly collaborative environment, as well as international work opportunities and professional development through the GHD Business School.

Due to the continued international expansion of the noise and vibration services offered by GHD, an exciting opportunity exists for a Senior Noise and Vibration Consultant to join our practice in the Melbourne office.

Primary responsibilities include:

- Providing technical leadership with Noise and Vibration assessment projects, and also projects in the wider environment business that have an Noise and Vibration focus across a broad range of industry and utility types;
- Managing and overseeing the technical delivery of Noise and Vibration assessment projects across GHD's market sectors;
- Working with senior staff in the team to identify new opportunities in expanding GHD's role in providing services in the Noise and Vibration assessment field, with a primary focus on attracting and retaining new clients in the local and national market place.

The Senior Noise and Vibration Consultant will be required to travel locally and occasionally interstate and overseas.

Skills and experience required:

- Relevant graduate or postgraduate qualifications;
- Substantive consulting experience with the provision of Noise and Vibration assessments to clients;
- Substantive regulatory experience, with an emphasis on noise and vibration assessments.

Experience with the management and delivery of noise and vibration assessment projects, in the application of recognised acoustic modelling tools to noise assessments, and with appearances at panel or tribunal hearings would be advantageous.

This is a fantastic opportunity to be part of a well-established and growing organisation. We offer a professional working environment and culture and believe that work / life balance is critical to the success and happiness of our people.

If you're a highly professional senior consultant with strong technical knowledge and project delivery experience, we welcome your application.

To apply, please submit your covering letter and CV to the appropriate role via <http://www.ghd.com/global/careers/opportunities/>
