

## Acoustic Team Leader - Sydney

VIPAC Engineers and Scientists are a multidisciplinary engineering consultancy employing more than 220 people globally. We are engaged in a diverse portfolio of projects encompassing the fields of Building, Industrial, Health and Environmental Acoustics across a range of industry sectors including Buildings, Infrastructure, Industry and Defence.

Due to the continued growth of our acoustics group and recent success in being awarded major contracts we are currently looking for an enthusiastic, highly motivated individual to lead our growing acoustic group in the Sydney Office.

Candidates will be suitably qualified with a Degree in Science or Engineering or related discipline, you will be a member of the UK IOA or AAS (or eligible for membership) and have a desire to develop your career in a building and environmental acoustics consultancy environment.

The successful candidate will:

- Have a minimum of 6 years experience preferably in building, and environmental acoustics;
- Team leader experience or the ambition and ability to step into that role based;
- Considerable experience in the operation of acoustic instrumentation, measurement procedures and assessment of building, industrial and environmental noise;
- A knowledge of SoundPLAN, Cadna, EASE or similar noise modelling software is desirable, but not essential;
- Be an energetic and innovative individual with a capability of working independently to tight deadlines;
- Provide leadership and direction to the acoustic team and junior staff;
- Be client focused with good customer service skills;
- Have excellent spoken and written communication skills and be highly competent at preparing and reviewing technical reports.

VIPAC Engineers and Scientists offers a flexible and supportive working environment with a competitive salary. VIPAC is an equal opportunity employer. For further information on this role or to make an application please contact / send your CV to the contact details below.

Applicants should be eligible to work in Australia and hold a valid drivers licence
