VICTORIA DIVISION

NOTICE OF EVENT

ANNUAL GENERAL MEETING (AGM) 2017 and VICTORIA DIVISION TECHNICAL MEETING

The Australian Acoustical Society is pleased to invite you to the
Victoria Division Annual General Meeting 2017.

Following the AGM, Professor Emeritus Lex Brown will give a presentation on
Noise Events in Road Traffic Streams.

Abstract

A key question for road traffic noise management is whether prediction of human response to road traffic noise could be improved by accounting for noise events in road traffic streams in addition to energy equivalent, or percentile, measures of noise exposure. However, there is a critical prior question: how should noise events in road traffic be measured? This talk will report on an ongoing study of possible event-based indicators.

About the Presenter

Lex Brown is Professor of Environmental Planning at Griffith University. His initial training was in civil engineering and urban and regional planning, with a doctorate in environmental acoustics.

He has worked with WHO Europe in the revision of the Guidelines for Community Noise, and is a Board Member of the International Commission on the Biological Effects of Noise. He was also co-editor of the WHO publication on the Burden of Disease from Environmental Noise. In 2016 he was elevated to Fellow of the AAS.

Drinks and nibbles will be provided by the AAS.

Date: Tuesday 19th September 2017

Time: 6:00 pm for 6:30 pm start

Venue: Wood and Grieve Engineers
22/570 Bourke St
Melbourne VIC 3000

RSVP by: By Tuesday 12th September 2017 to vic-secretary@acoustics.asn.au

Note: If arriving late, please contact Laura Lapena on 0450 122 587 for access to the building.
