

Acoustic Engineer

Sydney

THE OPPORTUNITY

AECOM is currently looking for an experienced and motivated **Acoustic Engineer** to join our team in Sydney. Reporting to the NSW Acoustics Manager, you will have the opportunity to work on signature projects whilst continuing to grow and develop your knowledge in acoustics.

You will be joining a team of world class acoustic engineers who work in a relaxed and professional environment with a culture that promotes and encourages high performance through collaborative team work.

Some of your main responsibilities will include:

- Working within a team to deliver building acoustics and noise and vibration impact assessment reports
- Perform onsite noise and vibration surveys
- Undertake computer modelling of noise and vibration propagation using in house analytical packages and industry standard software
- Preparation of technical reports
- Develop and enhance relationships with clients

WHAT WE OFFER

The Workplace Gender Equality Agency (WGEA) recognises AECOM as taking a sophisticated, holistic approach to supporting women and men's equal participation throughout our workplace.

We provide a diverse and inclusive work environment and offer many benefits to ensure your professional development & wellbeing.

- Flexible start and finish times, working from home, part time and job share options
- State of the art, modern and contemporary offices
- Paid Parental and Partner Leave
- Purchased additional annual leave + salary packaging
- Corporate Employee discounts from up to 400 retailers
- Wellbeing benefits e.g. vaccinations, health insurance discounts
- Employee stock purchase plans
- Professional memberships
- Study assistance
- Professional and technical development opportunities

ABOUT YOU

- Engineering or Science degree qualified in a relevant discipline, post-graduate qualifications will be an advantage
- 3-5 years of acoustic consultancy experience
- Demonstrated time management and organisational skills
- A strong sense of commitment, a willingness to learn, and a desire to work in a dynamic deadline drive environment.
