Audiometric & Acoustic Services is a Melbourne based firm seeking an addition to their consulting team.

We expect the applicant to have:

A Bachelor Degree in a relevant discipline

Ability to meet deadlines

Good communication skills with clients both written and verbal

Be prepared to expand their knowledge in the fields of environmental, building and architectural acoustics

Ability to work for the combined benefit of a small team

An applicant who brings additional skills that can extend the firm's areas of expertise will be well regarded

We expect a covering letter with your CV and copies of any relevant qualifications and references

Audiometric & Acoustic Services is an equal opportunity employer. A 4 day week might be considered for the right applicant.
