

ASK is looking for an experienced acoustics engineer or scientist with up to 5 years experience to join our South Brisbane based acoustics group. Ideally the candidate will have acoustics experience in various industries, and an Engineering or Science Degree.

The position will offer an attractive salary package which will reflect your experience level. Salary sacrifice is available. Appropriate professional development is funded by ASK, including conference attendance and participation in the engineering professional development program. Flexible hours are available if required. The position is located in South Brisbane within walking distance to West End and the City.

ASK is a well respected and experienced acoustics and air quality consultancy based in the centre of South Brisbane with a solid client base and steady stream of interesting work. ASK has successfully provided professional acoustics and air quality advice for over 24 years to the building, mining, industrial and transport sectors. We have been involved in motivating and challenging tasks for the private sector, as well as local, state and federal government agencies. ASK currently has a team of 7 engineers and scientists working in acoustics.

The ASK values are:

- To act in a socially and environmentally responsible manner.
- To embrace professional and personal ethics.
- To value the service, support and success of our staff.
- To build mutually rewarding relationships with our clients.
- To foster a positive team spirit.
- To strive for continual improvement.

The attributes of a good candidate are:

- Broad acoustics experience, with a focus on building acoustics and/or environmental noise.
- Well developed analytical, interpretative, statistical and problem solving skills.
- Good self management and project management skills.
- Excellent report writing skills.
- Good spreadsheet skills.
- Noise modelling experience. E.g.. SoundPLAN, Pen
- Ability to work effectively in a team and alone.
- Willing to take on responsibility and show initiative.
- Vibration experience would be considered highly.

The position is available now and we are interested in filling the role quickly. All applications will be considered. Please submit your application and CV via email to: stephen@askconsulting.com.au. All applications will be considered confidentially. For more details please contact Stephen Pugh on 07 3255 3355.
