Acoustic Consultant - Newcastle

Strong demand for our services throughout Newcastle and the Hunter Region has created an exciting opportunity for an experienced **Acoustic Consultant** to join our team in Newcastle.

In this role you will become part of our wider environment team who are passionate about the communities in which we live and have a reputation for providing practical and innovative solutions.

To be considered for this position you should be highly motivated and demonstrate the following attributes:

- Degree qualified in an engineering, science or relevant discipline with 5+ years experience in noise and vibration monitoring and assessment
- Membership with the Australian Acoustical Society (AAS) would be well regarded though not mandatory
- High level technical knowledge, including noise modelling
- Strong business acumen with the ability to provide premium quality consulting services to a range of internal and external clients
- Thorough working understanding of relevant noise guidelines, standards and other regulatory processes
- Experience in architectural acoustic assessments
- Sound business development and client liaison experience
- Exceptional communication skills
- A highly energetic and motivated approach to your work
- Experience in air quality modelling would be well regarded, though not mandatory

An ability to work with colleagues around the globe, and communicate effectively at any level will be crucial to your success.

Your next career move starts here. Join a highly-motivated team of 8500 people who collaborate seamlessly across the world to enhance the quality of communities in which people live and work.
