

Senior Acoustic Engineer

- Immediate Start
- On-site parking
- Qualified Acoustic Engineer

About us:

RØDE Microphones - a uniquely Australian owned and operated audio company - leads the world in the design and manufacture of microphones and sound technology. Our state-of-the-art base in Silverwater has over 30 million dollars in precision machinery, and a staff of more than 180 world wide. We have offices in Seattle, Los Angeles, New York and China; making RØDE a truly global company.

We are now looking for a Senior Acoustic and Transducer Engineer to join our growing team.

About you:

- Tertiary qualified Acoustic Engineer (local or abroad)
- A minimum of 10 years' experience
- Passionate about audio
- Excellent understanding of acoustic and electro-acoustic principles
- Experienced in transducer design
- Experienced in vibration isolation solutions
- In depth knowledge of microphones and microphone techniques
- Experience with acoustic measurement techniques
- Meticulous attention to detail and process-orientated approach
- Liaise with Industrial Designer, Product Designer and Electronics Engineer to provide test results
- Self-disciplined team player, able to work in multi-disciplinary team environment
- Good written and verbal communication to all internal and external stakeholders

About the role:

- Responsible for the successful deployment of all new acoustic and electro-acoustic solutions
- Staying up to date with the latest in acoustics/electro-acoustics research and manufacturing processes
- Pushing the limits of transducer design to set new standards
- Ensuring all projects uphold a high standard of functional and technical performance – in line with the RODE brand
- Manage inputs from key stakeholders Our factory and offices are modern and bright, offering comfortable staff break areas and an atmosphere which reflects our love of cutting edge technology, collaboration, and our deep connection to music and all things audio.
