

# Intermediate or Senior Acoustics Consultant / Engineer

**We are looking for an intermediate or senior Acoustics Consultant / Engineer to work on a diverse range of projects using innovative techniques.**

Newcastle, Maitland & Hunter

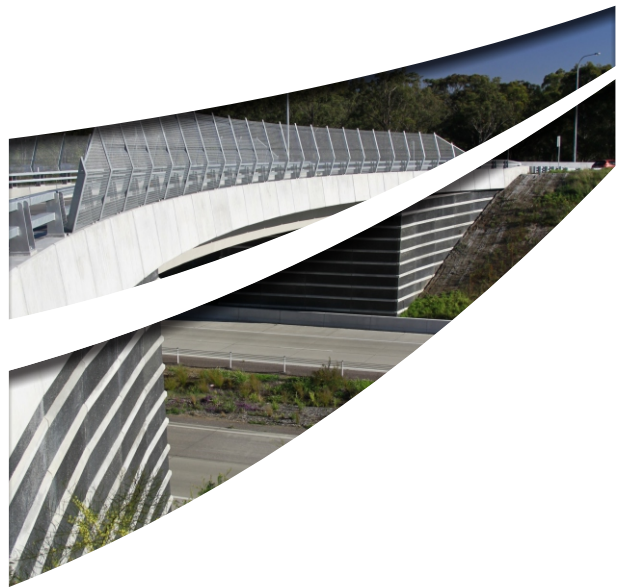

- Come join our growing team
- Diverse Projects
- Vibrant team environment

Umwelt is a leading environmental and social consultancy that is committed to delivering high quality services, tailored to the needs of our regional, national and international clients. We are committed to providing a workplace that enables inspired people and dedicated teams to achieve innovative and quality outcomes. Our people are our number one asset and we are committed to providing a workplace that supports our team to grow.

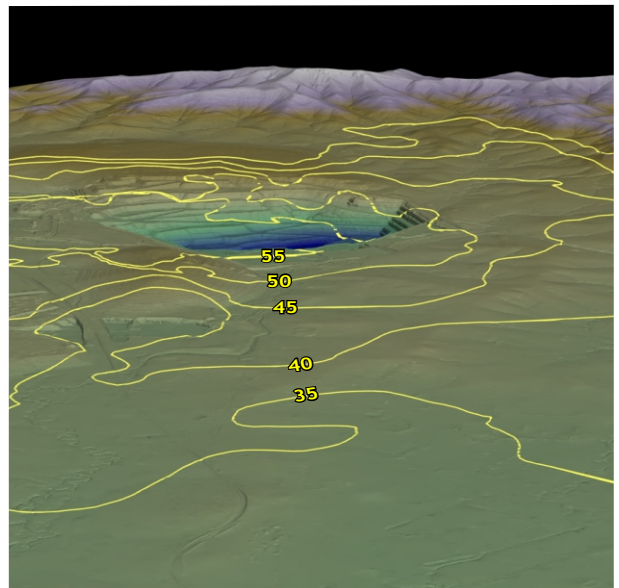

Our team works across Australia with key sectors including resources, Defence, infrastructure, industry and renewables. Our team is expanding in response to our success in securing a building pipeline of work, as well as Umwelt experiencing growth in our water engineering and acoustic services. As a result we are seeking an intermediate or senior Acoustics Consultant / Engineer who has the demonstrated experience to work on a diverse range of projects using innovative techniques.

## What we are looking for:

- A tertiary qualified engineer or science graduate
- 3-10 years Acoustic Consulting / Engineering experience
- A sound understanding of environmental acoustics and noise control
- Demonstrated ability in the application of complex environmental acoustics models
- Knowledge and understanding of NSW acoustics standards, policies, regulations and legislation (with other States highly regarded)
- Membership of the Australian Acoustical Society (highly regarded but not mandatory)

- Demonstrated ability to work on multiple projects
- Excellent writing skills with proven ability in the preparation of technical reports
- Strong interpersonal and communication skills and experience liaising with external and internal clients and experience in delivering projects across one or more of Umwelt's key sectors
- Experience in providing technical contributions to environmental assessments, pollution reduction programs and routine surveillance monitoring
- Ability to think laterally and interrogate data and results

Your application should address how you meet these criteria, detail your academic record and previous experience.

If this opportunity sounds of interest please apply by emailing [recruitment@umwelt.com.au](mailto:recruitment@umwelt.com.au) or alternatively you can contact Bianca Lockett on 02-4950 5322 to the role and organisation.

We will be interviewing suitable candidates as soon as they are identified so therefore request that you make your application for this role as soon as possible.

*Umwelt are wholly managing this process and applications from third party recruiters will not be accepted.*
