

Senior Acoustic Engineer

Newcastle Office

Wilkinson Murray Pty Limited is a specialist consultancy in Acoustics and Air Quality who currently have a position available for a Senior Engineer in their Newcastle office.

Company:

Wilkinson Murray is a firm with offices in Sydney, Newcastle, Wollongong, Queensland and Hong Kong, which provides Acoustical and Air Quality consulting services.

The firm was formed in 1976 and currently has 4 directors and 25 other personnel. The firm's clients are primarily from Government, manufacturing, resources and construction.

The firm provides services for major projects and small developments, and we are proud of our ability to provide specialist advice relating to the more complex acoustical and air quality issues. To achieve this, we adopt a high level of technology in our analysis and modelling.

The successful applicant will have the following skills and attributes:

- Tertiary qualifications in engineering / science
- 5-10 years' experience in acoustic and/ or air quality
- Strong business acumen with the ability to provide premium quality consulting services for a range of clients
- Thorough working understanding of relevant noise guidelines, standards and other regulatory processes
- Excellent report writing skills
- Strong verbal communication skills

Role:

- Delivering a range of projects, including environmental and building acoustics for major projects
- Managing project deliverables, costs and resources
- Conducting modelling, measurements, and analysis
- Engaging with clients to develop strong relationships
- Input to project strategy and programming project deliverables
- Sound business development and client liaison experience

Interstate and international candidates will be considered for the role.

To apply, please email your CV and covering letter to:
