

Acoustic Consultants, Sydney

Due to exciting developments in our team, SLR is currently looking to recruit **Acoustic Consultants** to join us in Sydney.

ABOUT US

SLR Consulting is an employee-controlled international environmental consultancy with a globally recognized reputation for providing high quality tailored services. With offices throughout the Asia Pacific, Europe, North America and Africa regions, SLR Consulting is one of a very small number of leading international specialist environmental consultancies.

THE ROLES

SLR has Australia's largest and most established Acoustic team, having started operations in Sydney in 1978. We have a reputation throughout the industry of outstanding technical excellence with a strong focus on delivering the right solutions for our clients. We have delivered and continue to work on many of the largest projects across the country.

We are currently looking for a number of motivated, ambitious and talented individuals to join us and continue to strengthen our reputation as one of the top Acoustic consultancies in the Asia-Pacific region.

We are looking for the following:

- **Building Acoustic Engineer (Associate level).** A senior role working with other experienced building acoustics engineers in our team to deliver solutions to the built environment both for existing and new clients. A high level of autonomy will be encouraged, as well as excellent client skills being a must. The role will also involve shared mentorship of more junior members of the team, as well as the opportunity to learn from experienced members of our team in the field of building acoustics.
- **Environmental Acoustic Engineers (Senior Consultant / Associate level).** Experience in construction and mining will be viewed very favourably for this role.
- **Graduate acoustic engineers,** who will work broadly on all types of projects and learn from a great team of experienced consultants.

However, equally important to us is cultural fit and shared vision. We want to grow our team around the right people. If you have a passion for Acoustics and want to work with other people who do – we'd love to hear from you.

For all roles, a relevant degree and Australian citizenship/working rights is essential.

JOB TASKS & RESPONSIBILITIES

You will be responsible for carrying out a great variety of assignments and will require a broad knowledge and understanding of engineering methods and techniques to solve problems. You will carry out technical tasks which will require accuracy in calculations, data analysis, modelling and design. You will have strong communication skills both written and verbal.

JOB BENEFITS & PERKS

SLR values our staff and we look to provide a supportive and collaborative working culture. Joining SLR, you will get the chance to work with a large number of well-respected industry leaders across our nation-wide offices. Accordingly, successful candidates will be offered an attractive salary package, global interaction with SLR staff and an innovative benefits program with a strong focus on targeted professional development. You will be a part of a large growing team with a strong focus on flexible working conditions.

For an opportunity to be considered for one of these roles, please apply by submitting your CV and a cover letter to apaccareers@slrconsulting.com quoting reference 'SYD-ACOUSTICS'.
