

Are you AECOM's next **Acoustics Team Leader**?

AECOM has an exciting opportunity for an experienced Acoustic Engineer to join our well respected Practice in Brisbane to lead and manage the acoustic team in Queensland.

This is a unique opportunity to take the next step in your career, to be responsible for the direction and the future of a keen group of acoustic consultants. With the support of other senior staff, the chance to lead, grow, develop and shape the future of the team is an exciting challenge of this role.

As part of a large, multi-disciplinary organisation, this role will not only offer you the opportunity to work alongside our team of acoustic specialists, both locally and across Australia and New Zealand (ANZ) on standalone Acoustics projects, but will also enable you to collaborate with the wider AECOM network, including Mechanical, Environmental and Transportation disciplines, giving you a broad exposure to a multitude of world-class projects.

The role contributes to the winning, management, strategic direction and delivery of moderate to large scale acoustic projects. It is responsible for the management of resources, budgets and timelines and enhancing client and working relationships. This role will assist with business development, leading and preparing proposals and include presentations to clients to win work. Mentoring and developing the acoustic team in Queensland, and interacting with the wider AECOM acoustic team in ANZ is also included.
