

Technical Director - Noise & Vibration

Why GHD

With more than 9000 people across five continents and the Pacific region, GHD is one of the world's leading engineering, architecture, environmental and construction services companies. Committed to the success of our clients and the communities in which we operate, we have an ongoing requirement for high-calibre professionals to join our connected global network.

Our people are passionate about improving the environments of global communities; we have a reputation for providing seamless solutions for our clients that enhance the quality of communities in which people live and work.

Strong demand for our services throughout Australia and internationally has created an exciting opportunity for an experienced **Technical Director – Noise & Vibration** to join our growing Melbourne **Air Noise and Meteorology team**.

Key responsibilities will include:

- Project management and business development
- Contributing towards the effective scoping and marketing of new project opportunities
- Mentoring and coaching junior staff in the development of general project management and technical skills
- Technical review of reports, acoustic modelling, and fee proposals
- Expert witness, panel, VCAT experience

The successful application will have the following skills and attributes:

- 15 years' or greater acoustic consultancy experience
- Building acoustics and building construction materials
- Industrial noise and vibration (e.g. industrial, power, water, mining)
- Transport noise and vibration (road, rail, aircraft)
- Occupational noise and vibration
- Design of noise and vibration mitigation treatments and management plans
- Windfarm and/or underwater noise
- Environmental risk assessment
- Accredited member of recognised acoustic organisation

In this role you will have the opportunity to work within our **large global Air and Noise Service Line** with its established client base, manage the acoustic and vibration aspects of multi-disciplinary projects, liaise with clients on a daily basis, and lead business development activities. You will be supported by GHD's planning, buildings, mining, power, environmental, water, transport, and aviation professionals to deliver projects.

GHD is a highly successful business with significant projects and opportunities within the environment sector. With challenging and interesting projects on the horizon, you'll have the opportunity to enhance your career development through working with highly skilled professionals and participating in technical seminars and conferences.

GHD support a culture that is truly diverse, collaborative and social. We believe in feeling free to be yourself at work and that balancing work and life commitments is the key to happiness. With a workplace rich in diversity of thought, background and experience – we've got what it takes to deliver amazing outcomes for our clients.

Your next career move starts here.

If you are ready for your next challenge and excited about our career opportunity, don't delay, we are waiting to hear from you today so that we can move forward quickly.
