

# *Annual Index*

Vol 32 2004

## **PAPERS**

**Au W.**

The Sonar of Dolphins, No 2, 61-63

**Anelich E J and Brown S C**

Engineering methods of noise control for modular bridge expansion joints, No 3, 101-107

**Bell A**

Resonance theories of hearing – a history and a fresh approach, No 3, 95-100

**Crowther A.R and. Zhang N**

Dynamic Modelling and Applications for Passenger Car Powertrains, No 1, 19-24.

**Fletcher N.**

Designing and Making a Ceremonial Dinner Gong, No 2, 65-68

**Hodkiewicz M.R and Pan Jo**

Identification of Transient Axial Vibration on Double-Suction Pumps During Partial Flow Operation, No 1, 25-32.

**Houtsma A.J.M**

Low-bitrate Coding, of Sound and Implications for High-Quality Digital Audio, No2, 49-54

**Li J, Samal B and Crews K**

Determining Individual Member Stiffness of Bridge Structures Using a Simple Dynamic Procedure, No 1, 9-12

**Liu D, Gurgenci H and Veldt M**

Crack Detection in Welded Mechanical Structures Using Coupled Vibrations, No 1, 13-18

**Pollard H. F.**

Acoustical Features of Musical Sounds No 2, 55-59

**Tachibana H**

Visualisation/auralisation of sound fields for room acoustics, No 3, 88-94

**Zhang S, Mathew J, Ma L and Sun Y**

Novel approach for integrated fault diagnosis based on wavelet packet transform, No 1, 5-8

## **ACOUSTICS FORUM**

**Burnham D et al** Research at MARCS Auditory Laboratories, University of Western Sydney, No 2, 69-73

**Fletcher N,** How to Build a 100 Watt Loudspeaker., No 1, 33

**Fletcher N,** Acoustics in the International Year of Physics, No 3, 117-118

**Paterson M,** Recent Changes to the sound insulation provisions of the building code of Australia, No 3, 111-116

**Seannell K,** Noise annoyance from seasonal industry in NSW, No 3, 109-110
