

## NSW DIVISION INDUSTRY PRESENTATION

### STRAW AND RW-74 High performance sound attenuation in lightweight panelised building systems.

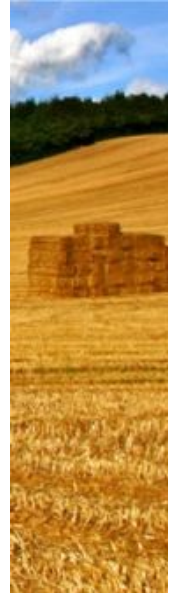

**Date:** Thursday, 25 June 2015

**Venue:** Neutral Bay Club, 3 Westleigh Street, Neutral Bay  
<http://neutralbayclub.com/the-club>

**Time:** 6:00 pm for 6:30 pm start (refreshments prior to talk)

**Speakers:** Steve Layfield & Andrew Ritchie (Ortech Industries Technical Consultants)

**RSVP:** By C.O.B. 16<sup>th</sup> June to Mattia Tabacchi by email [mtabacchi@ttmgroup.com.au](mailto:mtabacchi@ttmgroup.com.au).  
AAS members (and guests) are welcome to attend.

An interactive presentation and discussion:

Durra Panel is a highly effective material for noise control, in particular, the low frequency sound energy associated with; aircraft, pumps, heavy industry, music theatres and the like.

Durra Panel and Durra Panel Building Systems have a highly successful track record in reliable, cost effective noise control; commercial, industrial and residential applications - roof, ceiling, wall and flooring.

Case studies will be presented on Luna Park, Perth Arena, Star City Casino, Australian Airport precincts, Docklands Central City Studios and QGC Northern Water Treatment Plant.

Ortech Industries, an Australian owned company incorporated in 1985, manufactures Durra Panel, Durra Steel Sections and Durra Panelised Building Systems at its production facility located in Bendigo Victoria. Durra Panel is a unique rigid building slab that combines the desirable properties of low embodied energy, strength, sound and thermal insulation together with a high degree of impact and fire resistance.

Note: Event sponsored by  ORTECH INDUSTRIES PTY LTD
