

Australian Acoustical Society
Queensland Division

Technical Meeting 18 April 2007

F-Block (Level 5) - QUT Kelvin Grove

The New Student Learning and Support Centre Lecture Theatre, QUT Kelvin Grove

James Heddle

James Heddle Pty Ltd Acoustical Consultants

Recently opened by the Governor General, this 480 seat Lecture Theatre contains a number of landmark acoustic design features including surround sound audio capability. The presentation will outline the evolution of the acoustic design for the theatre, including the surround sound system, other multimedia requirements, room acoustics and structural isolation provisions, followed by the opportunity for attendees to ask questions and evaluate the theatre for themselves with CD and DVD material.

James Heddle, is the Principal of James Heddle Pty Ltd Acoustical Consultants. James has over twenty years of broad ranging experience in acoustical consulting. He has a particular interest and experience in room acoustics and sound reproduction for critical listening environments.
