Latest European Technology

Founded in 1969 Getzner Werkstoffe is one of the leading specialists in vibration protection.
Solutions from Getzner are used in the rail, construction and industry sectors to reduce
vibrations and noise, improve the service life of bedded components and minimise the need
for maintenance and repairs on tracks, vehicles, structures and machines. The elastic bearings
are based on the materials Sylomer® and Sylodyn®, both of which were developed and
manufactured in Buers, Austria.
