NOTICE OF TECHNICAL MEETING

AAS Members are invited to the following event

Entertainment Noise Planning and Policies

**Wednesday November 14, 2018 – 4:30pm for a 5:00pm start
Ground Floor 503 Murray Street Perth**

The WA Department of Planning is proposing a number of changes to applicable noise regulations within the Northbridge Entertainment Precinct. These come as a reaction to numerous noise issues between entertainment venues and surrounding residents in the Northbridge area.

The Department of Planning is seeking public comment regarding the proposed changes, which in summary entail removal of outdoor amenity targets to focus on indoor protection within a delimited protection zone (Northbridge Entertainment Precinct). This has implications and set foundations for further policy development across WA.

In this meeting, we invite open discussion of the proposal, the current situation of WA and opportunities for improvement. On the day, we will gather opinions from members to draft a combined response from the AAS WA Division before the submission deadline, 26 November 2018.

The presentation is intended for professionals in the field of environmental noise assessment, with particular interest/involvement in entertainment noise; however, all members are welcome.

The event will be held at SLR Perth office, Ground Floor 503 Murray Street Perth.
Drinks and pizza will be served!

Numbers are strictly limited. Please RSVP to asahu@slrconsulting.com should you wish to attend.

The guidance document will be provided on application. Please submit any presentation material you would like tabled prior to close of business on November 9.

Do you have a topic to present or discuss?
