

Senior Acoustic Engineer

Aurecon brings ideas to life to design a better future. Imagining what is possible, we turn problems into solutions. We provide advisory, design, delivery and asset management services on variety of projects across the globe. We seek to unravel complexity, create clarity and invent new value for clients.

We are now looking for a **Senior Acoustic Engineer** to join our Building Sciences Team in Melbourne, Adelaide and Sydney. This is an exciting role which will involve working on high profile local, national and international projects. We apply the latest technologies to our client base and in this role you will take on significant design responsibilities as well as playing a key part in developing new and strengthening existing client relationships.

As the successful candidate, you will have:

- A passion for Acoustics
- Experience in providing technical Acoustic advice
- Relevant tertiary qualifications, ideally in Mechanical Engineering although other degrees will be considered
- A desire to be challenged and introduce innovation and digital concepts to projects
- Be comfortable engaging with clients and have excellent verbal and written communication skills

This is a unique career-development opportunity for an experienced professional to join a tight knit team that works well both locally and with wider team in Australia. The role will expose you to a range of engineering disciplines, whilst inviting you to share your knowledge and expertise in return.

It also offers:

- Diverse, interesting and challenging work
- Local and international career opportunities
- Ongoing technical/non-technical training and personal development
- The opportunity to be involved in exciting major projects

At Aurecon, we are committed to fostering a culture that empowers our people, encourages sustainability and promotes team work and work life balance. We offer an attractive remuneration package along with the opportunity to work on high profile projects together with a rewarding career experience within our large and diverse organisation. We also support flexible work practices and are willing to negotiate work hours to meet your and Aurecon's needs in line with our commitments as an **Employer of Choice for Gender Equality**.
