

Team Leader / Lead Acoustic Consultant

Vipac Engineers & Scientists Ltd is seeking to recruit an enthusiastic, well-credentialed engineer or scientist for the role of Team Leader for our Sydney office. The role will involve overseeing the daily operations of the office, whilst ensuring targets are met. Located in Chester Hill, we are a state branch of a national organisation providing multi-disciplined engineering consulting services for New South Wales and interstate. The role will suit someone with:

- Tertiary qualifications in engineering or science, with industry experience in Acoustics/Vibration
- more than 10 years' experience in consulting
- suitable business acumen and managerial experience
- high level interpersonal skills and negotiating
- an ability to work in a team and with other senior staff in the company

The role will require the Manager to:

- Manage the Sydney office
- Provide technical lead on projects
- Supervise the delivery of office/group budgets
- Carry out regular project reviews to ensure feedback on technical and commercial issues

This is a diverse and interesting role in a friendly and supportive work environment. To be successful in this position you will be a person focused on high standards, and who is flexible and motivated. You must have excellent communication skills, verbally and in a written capacity. The remuneration will follow industry standards and be commensurate with experience. Professional development is encouraged and training is provided as required. Staff parking is available.

Please submit applications, including a cover letter and resume via email to careers@vipac.com.au
