

## SALES APPLICATION ENGINEER

Brüel & Kjær Australia is currently looking for an experienced Sales Application Engineer to join our team based in Melbourne

### The Company

Brüel & Kjær Sound & Vibration Measurement A/S supplies integrated solutions for the measurement and analysis of sound and vibration. As a world-leader, we use our core competencies to help Industry, Governments and Defence solve their sound and vibration challenges, so they can concentrate on their primary tasks. Brüel & Kjær is a subsidiary of UK-based Spectris plc ([www.spectris.com](http://www.spectris.com)), which has annual sales of £1,5bn and employs around 9800 people worldwide across its four business segments.

### The Job

- Provide pre-sales & post-sales support to customers in Australia and New Zealand
- Run Customer Training courses on products, Data Acquisition systems and Software Application solutions
- Be part of sales team to achieve sales target

### The Candidate

- Should possess Tertiary qualifications in Engineering (Electronic and/or Mechanical) or a relevant discipline (with 3-10 years' industry experience)
- Experience in technical support of hi-tech electronics test and measuring instrumentation and software applications
- Sound & Vibration domain knowledge will be an advantage

### We offer

The opportunity to join a global team of expert engineers where you will be able to further develop your skills and experience. Successful candidates will be offered an attractive salary package based on qualification and experience including Base, Super, Bonus and Company Car. Overseas training at our manufacturing plant in Denmark or the United Kingdom will be provided. Your application will be treated in strict confidence. An extended job description will be provided on application.

### To Apply

If you would like to find out more about this opportunity, please apply by sending your application including covering letter and resume, to [auinfo@bksv.com](mailto:auinfo@bksv.com).

Please note you must be an Australian or New Zealand citizen or a permanent resident or have unlimited working rights in Australia to apply for this position.
