

About the business

Resonate Consultants is not your average engineering firm. We're innovators. We're disrupters. We're collaborators. Off the back of a hugely successful year, we're looking for people who see and do things differently.

Resonate is a multi-award winning firm with an international footprint. The company prides itself on a culture which actively encourages collaboration, flexibility and use of new technology to offer radical and world-class solutions to our impressive client portfolio.

About the role

We're looking for talented, passionate change-makers. Positions available in **Sydney**, **Melbourne** and **Adelaide** at the following levels:

- Junior Acoustic Engineer
- Senior Acoustic Consultant
- Contract consultants

We are looking for **Acoustic and Vibration Engineers** who have the desire to break the mould of the traditional consulting model. You will need:

- An Engineering or Science degree
- A desire to deliver exceptional results for the external client and the internal team of colleagues

To be considered for the senior roles, you will need:

- A comprehensive project portfolio in the infrastructure and/or building sectors
- Experience working in rail, road and/or building projects
- Proven experience in a senior role in a technical and project management environment
- Track record of delivery excellent client outcomes
- Ability to empathise with client needs and mould a scope of work and set of deliverables that meet those needs.

Benefits and perks

You'll work in a **vibrant, energetic workplace** encouraging ongoing **professional development, wellbeing** and **work-life balance**.

Not just another boring consultancy. We don't do timesheets. We do have a wellbeing allowance. We're cloud-based. Resonate offers a competitive salary package and bonus scheme and an opportunity to consult on a diverse range of projects and some of the country's most prominent infrastructure, building and energy projects.
