

Air Noise Environment Pty Ltd

A Trinity Consultants Company

Acoustic Consultants - QLD

Air Noise Environment Pty Ltd, a Trinity Consultants Company is a well respected scientific and engineering consultancy offering a broad range of air quality and acoustic services, including monitoring, computational modelling, assessment and development of mitigation and innovative solutions for our clients. The company commenced operations in 1998 and has since developed an enviable reputation in the industry. We currently employ 12 permanent staff in QLD and 1 part time staff member in NSW. We are currently experiencing significant growth and are looking to expand our team in QLD.

We offer a supportive and enjoyable working environment, and our teams work on a diverse range of challenging projects that provide a great deal of variety and a high degree of job satisfaction.

We currently have vacancies for engineers to assist with current projects at our Brisbane office.

Scientist/Engineer Positions

- Qualified to degree level or above.
- Some prior experience would be advantageous, however applications from recent graduates are also welcome.
- Strong technical skills and a focus on developing solutions for our clients.
- Willingness to travel and work out of hours and weekends on occasions if required.

In the first instance please email a CV and cover letter to elsa.diggins@ane.com.au
