NOISE & VIBRATION ENGINEERING CONSULTANTS SENIOR/PROJECT ENGINEER

Renzo Tonin & Associates is a well-established specialist engineering consultancy renowned for high quality work in the fields of noise and vibration since 1982. We are committed to providing clients with the highest level of service including the provision of innovative and sustainable solutions.

Our Brisbane office is moving to newer premises and we are looking to expand as we have recently won some very large transport infrastructure projects and large institutional building projects. Following this growth, a new position has emerged for a Senior or Project Engineer based in Brisbane.

Key responsibilities for the successful candidate include:

- Delivery of projects within the field of building acoustics and environmental noise & vibration
- Design and coordination of technical advice
- Knowledge and capabilities in acoustic field measurements
- Computer modelling eg SoundPLAN, Cadna-A, ODEON, EASE etc
- Preparation of technical reports
- Client liaison, client liaison and proposal preparation

The successful candidates should have:

- Tertiary degree qualifications, preferably in engineering or physics
- Experience in Acoustical Consulting
- Strong oral and written communication skills
- Dedicated and proactive attention to detail
- Excellent technical report writing skills
- Effective organisation and project management skills

The on-going and continued growth of our Brisbane office offers significant potential for career growth and advancement. In addition to a competitive salary package (commensurate with the applicant's qualifications and experience) a generous bonus system is offered.

Applications shall be treated confidentially and sent to:
Brisbane@renzotonin.com.au
