

Vipac Engineers & Scientists Ltd is seeking to recruit an experienced engineer/consultant to work in a team of engineering consultants specialising in acoustics and/or vibration. The position is based in Spring Hill, Qld with onsite staff parking available. The role will involve project work within Qld and may involve work on national projects.

Vipac is a multi-disciplinary, nationwide engineering consultancy that provides vibration, acoustics and other services. We provide for building, infrastructure, oil and gas, industrial, mining and commercial clients.

We are looking for the following skills and attributes from the successful applicant:

- A degree or PhD in mechanical engineering, or similar science degree;
- Competent report writing skills;
- Willingness to travel for field work and flexibility with working hours;
- Strong communication skills;
- A team player who is able to work independently when required;
- A leadership role may be offered depending on skillset and experience; and
- The candidate must live in Brisbane or immediate surrounds.

The remuneration will follow industry standards and be commensurate with experience. Professional development (internal and external) is encouraged at Vipac. We also have a health & wellbeing program employed throughout the company.

Please submit all applications, including a cover letter and resume by email to: brisbane@vipac.com.au
