

Sonus is a leading acoustic consulting firm with a national reputation for excellence. With noteworthy projects in every mainland State and significant recent growth, we are seeking acoustic consultants at a range of levels to join our team.

We provide consulting services in all areas of noise and vibration including environmental, architectural, road, rail, aircraft, occupational and policy development as well as providing expert evidence for courts and planning authorities. Our clients include major listed companies and our projects include gas fired power station and renewable energy developments across Australia. In particular, we are considered to be a national leader in the renewable energy sector.

Senior Acoustic Consultant

We operate in a fast paced environment, where technical expertise, critical analysis, time management and the ability to think on your feet are highly valued – and the ideal candidate will fit seamlessly into this setting.

To be considered for this role you will have significant consulting experience in managing, measuring and predicting noise and vibration associated with environmental noise sources such as power stations, wind farms and road corridors. Experience in building projects is highly desirable.

This is a senior position that provides an opportunity to work on and manage a broad range of building and environmental noise projects, alongside some of Australia's most highly regarded acoustic engineers. To attract the right candidate, we're offering superior working conditions, including the ability to work remotely from any location in Australia or throughout the world.

Please forward your application to recruiting@sonus.com.au to initiate further discussions.

Acoustic Consultants

Opportunities exist for graduates and acoustic consultants in our Adelaide office. The successful candidates will have:

- a demonstrated interest in acoustics;
- a desire to learn and advance;
- a degree in mechanical engineering or a science equivalent;
- good communication and people skills.

Please forward your application to recruiting@sonus.com.au

Applications made through recruiting agencies will not be considered.
