

Environment Officer (Noise)

The opportunity

Right now, we have an opportunity for an **Environment Officer (Noise)** to join us in the Environment & Sustainability branch.

This is a full time, Temporary Fixed Term Opportunity for up to 2 years with potential for further extension. The role is to be located primarily in Macquarie Park however with the current COVID environment the incumbent of the role would generally be working from home subject to review and further notice relating to COVID. The role would potentially require occasional travel for onsite inspections or meetings as well as attendance at meetings at Transport offices including Parramatta, North Sydney and Milsons Point.

You will be responsible for providing expert advice and assistance to Transport for NSW staff and its contractors on a range of environmental planning, environmental management, assessment and compliance requirements for Agency activities in the specialist area of acoustics.

If you would like to review the extended advert and Role Description please review the advert posted on IWorkforNSW or Seek.com, Recruitment ID 6663.

Salary

The salary for this position is Grade USS 9 (\$114,601 to \$123,199) per annum plus superannuation and leave loading.

How to apply

To apply for this position, please email your updated resume and answers to the below questions (yes or no) to Sylvia Koutsoubaris at Sylvia.koutsoubaris@transport.nsw.gov.au.

- Do you have a relevant tertiary degree qualification in engineering, science including environmental science, or related discipline? A focus on acoustics is preferred but not necessarily essential.
- Do you have experience and capability in acoustics, with a focus in noise modelling, monitoring, assessment and mitigation for road infrastructure projects?
- Do you have experience in construction noise modelling, monitoring, assessment and the preparation of construction noise and vibration management plans?

Applications close: 11:59pm, Monday 23rd November 2020.
