

Senior Architectural Acoustic Engineer

Trinity Consultants Australia T/A ASK Consulting Engineers provides engineering, and scientific assessment services in the fields of acoustics and air quality. Our services specifically include architectural / building acoustic design for a wide range of projects. The acoustics team has an opening for a Senior Architectural Acoustic Engineer based at our Brisbane office. The successful candidate will work with our talented staff to continue serving existing clients and help with new project opportunities.

Responsibilities:

- To manage multiple projects and complete in a timely and budget-oriented manner
- To contribute to and undertake project tasks for other project managers
- To provide assistance and undertake tasks as requested by Directors and other senior personnel
- Commitment to, and inherent interest in, acoustics
- The ability and willingness to make a personal contribution to the firm
- Direct client liaison and management of requests and expectations
- Prepare fee submissions/proposals in an effective and efficient manner
- Develop new clients and project types
- Successfully complete all required health and safety training such as construction induction card (white card).
- Comply with company policies and procedures.
- Travel to sites as required for noise monitoring and inspections including construction sites. Some projects may involve some away-from-home stays (typically less than 2 nights away per month).
- Care of equipment.
- This position may require some weekend work.

Skills/Attributes:

- Australian permanent resident or citizen
- Possession of a valid driver's license
- Minimum qualification – Engineering or Science Degree
- 5 plus years experience in architectural (building) acoustics
- Experience working as a building acoustics specialist on projects such as hospitals, schools, theatres, concert halls, office buildings, and apartments.
- RPEQ/MIEAust/MAAS certification and membership
- Experience with noise modelling software such as INSUL, CADNAA, Soundplan, Zorba, Fantech.
- Experience working with drawing software such as AutoCAD and REVIT.
- Proficient in use of computer program applications such as word processing, spreadsheets and emails
- Good written and oral communication skills
- Strong work ethic with the ability to work in an outdoor environment
- Ability to maintain objectivity to correct/address issues that may arise
- Ability to effectively work independently or in a team environment
- Concern for quality

Benefits:

- Salary and benefits as per the relevant Award conditions (Professional Employees Award)
- Bonus system
- Work laptop
- Salary sacrifice available
- Professional development via multiple channel career program
- Culture encouraging innovation and involvement of employees
- Membership of applicable professional groups (AAS, IEAust etc)
- Overseas work placement potential if wanted

To apply, please send a resume and a cover letter detailing your relevant background experience and the reason why you are applying for the position to gadams@trinityconsultants.com.

All applications will be treated in the strictest confidence and responded to promptly.
