

## Acoustic Engineers – Melbourne & Adelaide

It's fantastic that you are thinking about joining a national group who truly value you and your acoustic consulting experience.

### Who we are

Resonate is a multi-award winning firm. The company prides itself on a culture which actively encourages collaboration, flexibility and use of new tech to offer radical and world-class solutions to our impressive client portfolio.

Resonate Consultants is not your average engineering firm. We're innovators. We're disrupters. We're collaborators. Off the back of a really successful year, even amidst lockdowns, we're looking for team members with practical experience in acoustic consulting to join our Melbourne & Adelaide teams.

You'll work in a vibrant, energetic workplace that encourages ongoing professional development, wellbeing and work-life balance.

We don't do timesheets. We do have a wellbeing allowance. We're 100 per cent cloud-based. We support inclusivity and diversity across the team. We actively commit to a sustainable environmental work approach.

Resonate offers a competitive salary package, bonus scheme, and an opportunity to consult on a diverse range of projects and some of the country's most prominent infrastructure, building and energy projects.

### Open roles

Due to internal promotions and increase project workloads, there are opportunities to join our high performing team within both our Adelaide and Melbourne teams.

- Senior Consultants – those able to demonstrate extensive experience, a high level of technical competency, and impressive project management skills
- Acoustic Consultants – with more than two years acoustic consulting experience
- Graduate Consultants –with a degree in Mechanical Engineering, Environmental Science or similar. An understanding of acoustics is an advantage but not essential.

### What you'll need to succeed

Your desire to delight clients through your project work and exceptional communication skills will see you succeed in this role.

In summary, we seek candidates who can:

- Provide clear and consistent communication with colleagues and clients
- Be highly organised
- Juggle multiple priorities
- Advocate for workplace safety and continual improvement of all business activities
- Live the Resonate cultural values

### Aspects that will strengthen your success

- Previous experience or studies in acoustic consulting, infrastructure and/or building sectors
- Membership of the Australian Acoustical Society and / or other relevant industry organisations will be considered favourably

### Interested?

Take a look at our website and LinkedIn pages to get a feel for who we are. Before you submit your application, contact our CEO Sarah Leo [sarah.leo@resonate-consultants.com](mailto:sarah.leo@resonate-consultants.com) to receive a copy of the role outline. All enquiries will be handled discreetly.
