## **Senior Acoustics Engineer Consultant**

Melbourne, Australia

### **Just imagine your future with us...**

At Aurecon we see the future through a very different lens. Do you? Innovation, eminence and digital are at the heart of everything we do. Are you excited about the future?

Are you driven by the opportunity to work on some of the most challenging and complex projects around the world and to learn from the best? We are.

Diversity is at the core of everything we do. We work together to create a culture based on respect, trust and inclusiveness. Our differences are what fuel our creativity.

We embrace flexible working and are always open to discussing your individual needs so that you get to create your own experience with us.

### **What will you do?**

We are now looking for a Senior Acoustics Engineer to join our Acoustics Team. This is an exciting role which will involve working on high profile local, national, and international projects. In this role you will take on significant design responsibilities as well as playing a key part in developing new and strengthening existing client relationships.

As the successful candidate, you will have:

- A passion for acoustics
- Experience in providing technical acoustic advice
- Relevant tertiary qualifications
- A desire to be challenged and introduce innovation and digital concepts to projects
- Be comfortable engaging with clients, and have excellent verbal and written communication skills

This is a unique career-development opportunity for an experienced professional to join a tight knit team that works well both locally and with wider team in Australia. The role will expose you to a range of engineering disciplines, whilst inviting you to share your knowledge and expertise in return. It also offers:

- Diverse, interesting and challenging work
- Local and international career opportunities
- Ongoing technical/non-technical training and personal development
- The opportunity to be involved in exciting major projects

At Aurecon, we are committed to fostering a culture that empowers our people, encourages sustainability and promotes team work and work life balance. We offer an attractive remuneration package along with the opportunity to work on high profile projects and a rewarding career experience within our large diverse organisation. We also support flexible work practices and are willing to negotiate work hours to meet your and Aurecon's needs in line with our commitments as an Employer of Choice for Gender Equality. The geographical location of this position is open to discussion.

## **About us**

### **We've re-imagined engineering.**

Aurecon is an engineering and infrastructure advisory company, but not as you know it!

For a start, our clients' ideas drive what we do. Drawing on our deep pool of expertise, we co-create innovative solutions with our clients to some of the world's most complex challenges. And through a range of unique creative processes and skills, we work to re-imagine, shape and design a better future.

We listen deeply and intently, which helps us see opportunities, possibilities and potential that others can't.

Think engineering. Think again.
