

Lloyd George Acoustics is a Western Australian based consulting firm specialising in the field of noise and vibration. The company has been delivering professional, friendly and timely consulting services to the private and public sector across WA and nationally for over 20 years. We pride ourselves on our culture of customer focus, technical expertise and going above-and-beyond for our clients.

Over the years our team and reputation has grown in line with demand for our services. We have an excellent career opportunity for an experienced acoustical consultant to join our team. We are looking for a highly motivated individual who can hit the ground running and assist our existing team with current and future deliveries. The position will be full time, however we will consider flexible working hours including working from home. The applicant is to have a degree in engineering or science and hold a current drivers license.

Key responsibilities and desired experience includes:

- Customer Focus - Strong communication skills necessary to build rapport with clients.
- Site measurements - Technical understanding of noise and vibration instrumentation and analysis.
- Computer modelling - Use of software such as *SoundPLAN* and *Insul*.
- Report Writing - Excellent report writing skills is a must.
- Able to work independently and dependably within a team environment.
- 3+ Years experience working in acoustical engineering or scientific role.

The majority of our work is focused on:

- Major and minor residential, commercial and industrial development
- Transportation noise and vibration assessments for road and rail infrastructure providers and for impacted residential development; and
- Architectural acoustics, mainly in relation to apartment developments.

Applicants demonstrating experience in these areas will be highly regarded.

Successful candidates will be offered an attractive salary package, commensurate with experience and qualifications. We offer a rewarding work culture that is balanced with life's other demands and maintaining a "keep it simple" approach in an otherwise highly technical field.

If this sounds like something you are interested in, we would love to hear from you!

Applications and enquiries should be sent to terry@lgacoustics.com.au. Interstate applicants welcome.
