

Experienced Acoustic Engineers, Transport and Environment

Opportunities in Brisbane, Sydney and Melbourne

WSP is one of the world's leading engineering professional services consulting firms. We design lasting Property & Buildings, Transportation & Infrastructure, Resources (including Mining and Industry), Water, Power and Environmental solutions, as well as provide project and program delivery and strategic advisory. With 5,500 in 50 offices across Australia and New Zealand alone, we engineer projects that will help societies grow for lifetimes to come.

Our acoustics team is one of the world's largest collection of acoustic engineers, with a growing presence in Australia/New Zealand with teams in Brisbane, Sydney, Melbourne, Canberra, Perth, Adelaide, Newcastle, Auckland and Christchurch; we operate as a highly autonomous and genuinely national acoustics team.

Due to the success and growth of our operations in Australia and New Zealand, we have opportunities for experienced acoustic engineers to join our Brisbane, Sydney and Melbourne offices, working on major transport projects and assisting with the continued development of the national acoustics transport team.

How we support you in your career at WSP

- National exposure to some of Australia's headline projects
- Global mobility opportunities
- Robust employee-led training programs to ensue you are always ready for the next step in your career
- Flexible working hours and working from home arrangements
- Parental leave and purchased additional annual leave

What you will do

Your role will be one of client centricity and expertise. Your professional investment will drive success in our business and promote a strong working culture within the national team. Duties will include:

- Carrying out and manage transport and environmental acoustic projects
- Conducting, report writing and overseeing on-site noise and vibration monitoring work

- Actively contributing in meetings during various project phases, i.e. environmental consideration, design and construction, stakeholder and community engagement
- Liaising effectively with internal/external stakeholders in a professional and supporting manner
- Working with the national team; sharing knowledge, encouraging collaboration and driving innovation.

What we will love about you

We are looking for applicants with a strong transport (road and rail)/environment focus and a history of delivering these projects locally or Nationally across Australia. As an experienced acoustic engineer, you will have at least 3 - 5 years' experience and 6 - 10 years' experience if you are looking for a senior position.

Robust proficiency with performing propagation modelling tasks using SoundPLAN modelling software as well as GIS capabilities as an essential skill to the successful delivery of our projects.

To apply

Please send an updated version of your resume to Emma.Quinn@wsp.com for roles in Sydney and Brisbane and resumes to Damien.Monahan@wsp.com for interests in Melbourne

WSP supports a diverse and inclusive work environment as well as equal employment opportunities. We encourage Aboriginal and Torres Strait Islanders and people of culturally diverse backgrounds to apply.

Please note: We will not be accepting applications through recruitment agencies
