

Acoustic Engineer

Brisbane – Northside

Matrix Acoustics is a growing company that works in very diverse market segments. We are looking for an engineer to join the team and grow the company.

We are looking for:

- Degree level education recognised by Engineers Australia
- Ability to undertake acoustic engineering and design calculations from first principles
- 2-4 years experience in consulting
- Experience with SoundPlan, Insul, EASE, Matlab, GIS
- Excellent report writing skills
- Experience with noise and vibration measurements
- Proposal writing
- Excellent time management

Most importantly, we are looking for a dynamic and conscientious individual who understands how to be part of a team, shows initiative, and understands how to work with various clients' needs. Strong technical writing and verbal communications skills are essential in our work. Software and programming skills in excel, matlab, QGIS, python are also favourable.

Salaries are negotiated and are based on the benefits you bring to the company.

If you are keen to be part of a growing company and can develop and maintain client relationships, have a high standard of work and technical excellence, love acoustics, enjoy site work around Australia, and want to work with like-minded experts, we are keen to hear from you.

Please send your resume to ask@matrixacoustics.com.au along with an email introducing yourself.
