

Acoustic Logic is Hiring!

We are looking for talented and enthusiastic people to join our Sydney Office. As we are expanding our team various levels or experiences will be considered. Acoustic Logic believe in suitably rewarding our staff; hence remuneration will be commensurate with experience and seniority. It has always been our practice invest in exceptional people and provide training to the right candidate.

Acoustic Logic is a specialist Acoustic and Vibration consultancy with offices in Sydney, Melbourne, Brisbane, Canberra, Dubai and the UK. Our philosophy is to strive to develop long-term collaborative relationships with our clients, head consultants and other environmental, engineering and planning specialists. We believe that lasting relationships are based on professional integrity, product delivery, trust, and mutual collaboration. We have always been known for the excellence of our work, which has seen us complete the majority of the major projects in and overseas.

Our philosophy toward our employees is to be fair, provide a creative, collaborative, and flexible environment to allow staff to grow and harvest their potential in an area they are interested. It is our aim that staff will strive to build a valuable career and work towards increased capability and responsibly.

The role could include:

Noise and vibration surveys, computer modelling, noise and vibration impact assessment, technical reports for a range of clients on projects ranging from transport related environmental assessments, to commercial and residential developments. You will be given the opportunity to lead and run your own projects, with support from experienced team members, to gain more proficiency, responsibility, and client contact.

Qualifications and experience that may describe the successful candidate:

- Tertiary Qualification (Bachelor of Engineering, Architecture or Science) – highly valued;
- Experience in using 3D acoustic modelling such as SoundPlan, EASE and other acoustic software is highly desirable;
- Self-motivated and design orientated with the ability to work with others on complex projects to meet project deadlines;
- Has excellent written and oral communication skills, is client focused and enjoys communicating with a diverse range of clients and stakeholders;
- Current Driver's License.

Applications should be sent to: info@acousticlogic.com.au
