

# Consultant Acoustics & Vibration

## ABOUT US & THE ROLE

SLR Consulting is an employee-controlled international environmental consultancy with a globally recognized reputation for providing high quality tailored services. With offices throughout the Asia Pacific, Europe, North America and Africa regions, SLR Consulting is one of a very small number of leading international specialist environmental consultancies.

We have an excellent career opportunity within our Acoustics & Vibration discipline for both full-time and part-time consultants looking to join our great team. This role can be based anywhere within the APAC region for the right candidate, due to our One Team approach to project delivery. We are looking for someone who values technical excellence, is responsive and has a passion for innovation. The role will see you supported by our APAC Acoustics and Vibration team of 65+ technical staff working across a range of industry sectors. **If you are someone who has a great positive influence on others, passionate about the Acoustics & Vibration discipline and keen to work with some great technical specialists this is the role for you!**

## SKILLS & EXPERIENCE

We are considering a range of different consultants between 2-20+ year's industry experience, including experience within a consultancy group, that ideally have:

- Appropriate Engineering or Science tertiary qualification and demonstrated Acoustics & Vibration sector / industry experience
- Excellent communication skills and technical report writing
- Strong technical acumen in the field of acoustics and vibration
- Demonstrated experience working within teams to deliver successful project outcomes
- Contributes to the development of the regional team which includes assessing business risk, growth opportunities and resourcing requirements
- Excellent interpersonal skills, self-motivated and ability to work effectively within a team
- A strong track record in building, nurturing, and maintaining ongoing client relationships

## JOB TASKS & RESPONSIBILITIES

Job tasks and responsibilities would be determined based on your capabilities and interests. As you develop, you will lead successful project delivery and manage a range of responsibilities around client / business development, business administration and/or technical leadership. We encourage and support our staff development to have the following qualities:

- Demonstrating knowledge of relevant State and National legislation and policies, standards and guidelines
- Being professional with communication, style and follow-up
- Actively supporting each other, recognising that others' role objectives, perspectives and challenges may be different from their own, and that sharing information is a good thing
- The ability to build rapport quickly within the A&V team, other technical disciplines and their teams
- Preparing quality reports for internal and external clients on time and within set budgets
- Developing, facilitating and enhancing relationships between our internal and external clients and SLR team members
- Contributing to winning work by identifying and converting opportunities and drawing on your client relationships
- Providing advice and assistance to internal and external clients, team members and Project Manager's on projects regarding best principles and practices
- Most importantly - having fun and celebrating the positives in what we do

## JOB BENEFITS & PERKS

SLR values our staff and we look to provide a supportive and collaborative working culture. Joining SLR, you will get the chance to work with a large number of well-respected industry leaders across our APAC region. Accordingly, successful candidates will be offered an attractive salary package, global interaction with SLR staff and support with a strong focus on targeted professional development and flexible working conditions.

**Cultural fit and shared vision are very important to SLR. We want to grow our team around the right people. If you are practical, client focused and highly motivated – we'd love to hear from you.**
