

Job Opportunity

ACOUSTIC ENGINEER - SYDNEY

Project or Senior Engineer

Due to our continued growth and strong pipeline of infrastructure projects, Renzo Tonin & Associates' Sydney office is looking for a project level or senior level acoustic engineer to join our team.

The successful candidate will enjoy the challenge of servicing the needs of a large and varied client base, will have the opportunity to work on some of Sydney's most prominent projects, and will have:

- a degree in engineering or physics
- experience in environmental noise & vibration assessment
- computer modelling experience using Cadna-A or SoundPLAN,
- the ability to communicate well with clients and colleagues
- excellent report writing skills
- an interest in business development and project management.

Renzo Tonin & Associates is a long-established specialist engineering consultancy renowned for high quality work in the fields of noise and vibration since 1982. We are committed to providing clients with the highest level of service including the provision of innovative and sustainable solutions. We have been steadily growing and have a diverse pipeline of infrastructure, industrial, construction and building projects in NSW.

We are a company that values our staff and provides on-going training so that together we remain at the forefront of our industry. The continued growth of our Sydney office offers significant potential for career growth and advancement on a national level. In addition to a competitive salary package, a generous bonus system is offered, and the successful candidate will be provided with an outstanding support structure to assist with furthering their professional development with a clear career path.

Applications shall be treated confidentially and sent to:
