

Senior Acoustic Consultant

Watson Moss Growcott Acoustics Pty Ltd has operated since 1978 as an independent noise and vibration consulting practice. Our firm is one of the most experienced of its type in Victoria and has developed a reputation for providing practical consulting advice to address client needs.

We are looking for two exceptional senior consultants to help meet the demands of our exciting growth.

As our new senior consultant, you will play a primary role in leadership of the WMG team.

Our ideal candidate has extensive experience within the industry including knowledge of legislation and guideline documentation, building acoustics, environmental acoustics, planning acoustics and presentation of expert evidence at VCAT.

With the above knowledge, you will participate in daily client services and project management including managing our assisting consultants.

Further to the above, you will be required to be prepare concise client focused reporting, and review reporting prepared by others in accordance with internal policies and procedures.

Key responsibilities of the successful candidates will include:

- Ability to take control of projects and client relationships.
- Project management and delegation.
- Knowledge of legislation and guideline documentation.
- Computer noise modelling software capabilities (eg. CadnaA etc).
- Knowledge and understanding of field measurement techniques.
- Preparation of concise client focused reporting.
- Review of reporting prepared by others.

The requirements of the successful candidate will include:

- Tertiary degree qualification in mechanical engineering or professional engineer registration equivalent.
- Minimum of 5 years experience in the industry.
- Experience in a range of acoustic consulting projects (eg. Town planning, building acoustics, traffic noise, environmental noise etc).
- Have a personal vehicle and current driver's license.

This role offers:

- Experience in a range of different industries.
- A flexible work environment.
- Professional growth and support structure.
- Competitive remuneration package based on experience and ability.
- A generous bonus structure based on performance.

Applications should be sent to reception@wmgacoustics.com.au
