

Australian Acoustical Society
A.C.N. 000712658
NEW SOUTH WALES DIVISION
TECHNICAL MEETING

**Interaction Between Road/Tyre Noise, Skid
Resistance and Aquaplaning in Road
Surfacing**

The Date: Wednesday 14th June 2006

The Venue: NATIONAL ACOUSTICS LABORATORIES
126 GREVILLE STREET, CHATSWOOD

The Time: 6.30 pm to 7.30 pm

The Speaker: David Dash

David Dash is a pavement consultant, who was formerly General Manager, Pavements for the RTA. He has co-authored papers on the investigation of noise levels in pavement wearing services on the F3 in the 1900's, and more recently, a paper on a low-noise concrete pavement with exposed aggregate servicing. He was closely involved with the Austroads Guide to the Selection of Road Servicing and the Pavement Rehabilitation Guide.

This is a light hearted discussion on the interaction between road/tyre noise, skid resistance and aquaplaning in road surfacing.

RSVP: by Monday 12th June to Rodney Stevens

info@[rsaacoustics.com.au](mailto:info@rsaacoustics.com.au)

if no email available ring Rodney on 9542 7979

All Welcome. Refreshments will be provided

**There will be a technical discussion on the recently released Vibration guidelines
on the 12th July so please keep that date free.**
