SOUTH AUSTRALIA DIVISION

TO ALL AAS MEMBERS and interested parties

TECHNICAL MEETING

Wednesday 19 May 2004

A Spotlight on Sound

by

Dr Anthony Zander
School of Mechanical Engineering
The University of Adelaide

This presentation will focus on a relatively new technology - the audio spotlight - that uses airborne ultrasonics to generate highly directional audible sound beams. The operating principles of the device will be outlined, and the device will be demonstrated. Potential applications of the audio spotlight will also be discussed.

Anyone interested in attending the meeting is encouraged to join us prior to the meeting for a friendly dinner and drinks (free wine, beer and soft drinks for members!) at Rumours (formerly the University Gallery) at **6pm on Wednesday 19 May**, Level 6 of the Union House (see map below). The meeting will commence at 8pm in the H.H. Davis Room, School of Mechanical Engineering, Engineering South Building.

Please RSVP to Luke Zoontjens via 8303 6437 or luke.zoontjens@mecheng.adelaide.edu.au, to confirm the number of attendants.

PLACE: H.H. Davis Room, School of Mech. Eng.
University of Adelaide.

DATE: WEDNESDAY 19 May, 2004

TIME: 6pm at Rumours, Level 6 or, 8pm in the
H.H. Davis Room, Level 1, Eng. South Bldg.
