

ACOUSTICS CONSULTANTS SYDNEY

Jacobs is one of the world's leading providers in technical, professional and construction services. We specialise in architecture, engineering and construction, operations and maintenance, as well as scientific and consulting. Our client portfolio includes industrial, commercial, and government clients across multiple markets and geographies.

With a very strong pipeline of work in NSW, we currently have some excellent opportunities within our Sydney team for Acoustic Consultants.

Acoustic Consultant

Ideally you will have experience in environmental and/or architectural acoustics (with a willingness to work across both fields). You will play a key role contributing to the growth and successful performance of our acoustics discipline in NSW and nationally, working on a mix of diverse and transformational projects.

The role will require someone who can deliver exceptional technical outcomes for our clients. You will have a proven ability to manage projects, lead project teams, and establish and maintain client relationships. You will be a team player and possess excellent communication and project delivery skills.

Principal Acoustic Consultant

Responsible for providing technical and professional leadership, project management and business development support to our acoustics team across ANZ. You will have experience in environmental acoustics and managing small teams.

Skills and requirements for this role include:

- Bachelor degree in relevant discipline. Post graduate qualifications are well regarded
- Well-developed business development skills, ability to maintain positive relationships with existing clients as well as the skills to win new clients
- Principal level experience with proposals and project management
- Technical competency and the ability to develop strategies for project execution
- Recent experience in reviewing acoustic assessments and noise models (SoundPLAN) for large scale infrastructure projects
- Skilled people leader able to communicate difficult concepts and negotiate with others to adopt a different point of view
