

Looking for a sound solution

Acoustic consulting opportunities in Asia

With a wealth of growth opportunities in Singapore and the region, Arup is looking for a talented Senior Acoustic Consultant to join us. Based in Singapore, you will be part of a dynamic team and you will be responsible for design and management of key projects.

Arup is a global design, engineering and business consultancy that was founded on the belief that the built environment can change people's lives for the better. Every day, everywhere, we strive to meet this aim – helping clients solve their biggest challenges by harnessing our diverse skills and constantly expanding what's technically possible.

With a reputation for pioneering innovations, Arup pursues quality and excellence which is reflected in the impressive portfolio of iconic and award-winning developments including Singapore Sports Hub, Marina Bay Sands, The Helix, Sydney Opera House, and the Beijing National Stadium.

Providing a fresh approach to acoustic design, Arup created the SoundLab – the world's first auralisation studio enabling clients to hear the impact of design on their projects.

A career at Arup offers you the chance to make a positive difference in the world. We recognise that great design includes a responsibility to the future. Independently owned, we invest in research and innovation to improve our industry's environmental impact. We also support our people in a wide variety of community activities, serving areas of the world that need it most. In doing well by doing good, Arup was included as one of 51 companies who on Fortune Magazine's inaugural "Change the World" list.

If working in a dynamic region with opportunities to influence design on challenging projects excites you, we invite you to come shape a better world with us. Follow this link to find out more: [Senior Acoustic Consultant Singapore](#).
