

ViridIFC

Environmental Noise Consultant - Brisbane

About the business and the role

Virid IFC is a recent coming together of Edentech, Discipline 8 and the consulting arm of Ambient Maps. With this history we have helped deliver \$16B of projects across Australia in civil construction, mining, defence and other industries. Our team provides a wide range of environmental, safety, approvals, spatial and project management services. We are involved from conception to completion and are actively working to develop some exciting projects of our own.

Currently we are seeking a specialist noise consultant to join our growing team to work on a number of large-scale transport and development projects.

Skills and experience

We need candidates with the following:

- Noise modelling experience with SoundPLAN, CadnaA or similar software.
- Demonstrated experience with road traffic noise modelling.
- Relevant tertiary degree qualifications in engineering or science.
- Working knowledge of relevant legislation, regulations, codes of practice and guidelines, related to road traffic.
- Attention to detail including strong QA/QC and technical report writing skills (example reports to be provided).
- Good written and oral communication skills.
- Demonstrated initiative and capability to work independently.
- Australian Citizenship or rights to work in Australia.

It will be advantageous if candidates possess one or more of the following additional skills:

- Familiar with a broad range of deliverables, including construction noise and vibration, environmental impact assessment/statements, DA's and D&C infrastructure projects.
- Experience and/or close contacts abroad, ideally in Asia, the Middle East or North America
- Drafting or GIS competency, in particular AutoCAD and ArcGIS,
- Experience with Visual Basic, MATLAB or other high-level programming languages (e.g. Python).
- Demonstrated project management experience.
- Chartered Engineer and/or RPEQ status, or on the way to obtaining.

Why us?

We are a small team with aspiration to grow and will need to bring people along. We care about our team. Remuneration will be dependent on experience and ultimately performance. Independent contractors or those seeking traditional employment are both welcome.
